# Kion x Rani

This is a decent ship, but I don't ship it for one major reason: I have heard of a fairly popular theory where Rani only wants Kion for his Roar. I believe that theory and that is the main reason I don't like them together. Other than that, okay ship.

Rating: 8/10

# Kion x Fuli

Probably the best Kion ship. I know some people see Kion and Fuli as just friends, but I saw moments throughout the series to point to them as more than friends. I think they could have been more if the series had investigated that relationship deeper, and I know I'm not the only one who thinks that. There is also a petition online to make Fuli x Kion a real thing if they make a fourth season and to get rid of his scar. Seems like an okay idea, but let's just leave the series as it is and hope for another, okay everyone?

Rating: 10/10

# Kion x Jasiri

Probably just friends, and nothing more. I mean, I can see them together a bit, but not that much. I don't understand why people ship them together, but eh okay.

Rating: 3/10

# Kion x Kovu

I ship this. I first came across this ship in an AU where Kiara was the leader of the Lion Guard and Kion was the future king and he fell in love with Kovu. It was a pretty good story, but I forgot the title and author so I can't really find it again. I also always thought of Kion as bisexual like me, and I see Kovu with him instead of like Scar (yes that is an actual ship I saw once) - which I'm pretty sure is pedophilia.

Rating: 8/10

# Kion x Tiifu

Can't really see them together, but more than I can see him with Zuri. Doesn't even talk to him that much either.

Rating: 3/10

# Kion x Kiara

This ship had some stages with me.

Stage 1 (Upon Seeing this for the First Time): Ha-ha, funny joke, no way that's an actual ship

Stage 2 (Upon realizing this isn't a joke) *brings out hammer and smashes iPad to pieces*

Stage 3 (Upon realizing people actually ship this) *finds KionxKiara shipper home* *shoots them*

Stage 4 (Upon realizing that, since this is a ship, there unfortunately must be lemons) *hangs himself from ceiling fan of bedroom*

I saw this work once because Kion was from a different Pride and not related to Kiara.

Rating 0/10 (no fucking way in goddamn hell would I actually ship this)

# Kion x Zuri

I don't ship this at all. Who came up with the ship? Other than the one story in the magazine, there is zero context for this at all.

Rating: 1/10

# Kion x Vitani

Decent ship. I'm okay with this ship, but it's not as good as some of the others on l this list. It's certainly better than others. *coughs* *KionxKiara* *coughs* sorry had something in my throat.

Rating 6/10

# Kion x Nala

No. Just fucking no.

Rating: O/10

As Batman would say, "Hard pass."

# Kion x Simba

First off, it's his father. Second of all, it's pedophilia. So....no. Just fucking no. I know I'm going to hell, but I ain't doing nothing like this to get me there.

Rating: 0/10.

As Batman would say again, "Even harder pass."

# Kion x Scar

No. Why is this a thing!

Rating: 0/10

# Kion x Kopa

Nah. First off, as far as we know, they never met. Second off, no thanks yo. It's incest. And pedophilia.

Rating: 0/10

# Kion x Zira

Nada. She is old enough to be his grandmother. And it's pedophilia. And it's incest. Fuck off, Zira.

Rating: 0/10

# Kion x Bunga

I don't think this is a thing for sure, but Im including it here because somebody somewhere has probably made it into a thing. But either way, no thanks.

Rating: 0/10.

# Kion x Anga

What would the kids look like? Lion cubs with purple wings? Hell, I don't know. I do know this ship should not be a thing, though.

Rating: 2/10

# Kion x Beshte

This had better not be a thing. Nope.

Rating: 0/10

# Kion x Ono

This also shouldn't exist, but it unfortunately does.

Rating: 0/10

# Jasiri x Janja

I like this ship. I like how Janja started out as the villain, but eventually became reformed by Jasiri and her influence.

Rating: 9/10

# Fuli x Azaad

I don't really like this ship. I think their relationship was rushed at the end, and I also think Fuli and Kion would be a better match for the two of them and their personalities.

Rating: 3/10

# AN

Hey, guys. Those were all the ships I could come up with and/or remember. But if you realize that there are some ships that I forgot to mention and would like to see them on here, please comment in this chapter for that. Thank you. Hakuna Matata.

# Kion x Ushari

This ship is full of shit, first off. Second off, NO.
